

# HIGH CONTRAST BOOKS FOR NEWBORNS

**(0-3 MONTHS)**

Research indicates that high-contrast colors like black and white register most strongly in a baby's brain and help the optic nerve to grow.

*Find each of these books in the board book section under the first letter of the author's last name.*

*Black on White* (Hoban)

*Look at Baby's House!* (Linenthal)

*Look at the Animals!* (Linenthal)
