

STEAM Kits: Frequently Asked Questions

Q: What is a STEAM Kit?

A: It is a take-home set of something to play with that fits in one of five categories: science, technology, engineering, arts, or math.

Q: What is in the bag?

A: Check the tag! There are all kinds of different things—activity sets, books, DVDs, or a combination of those things.

Q: How do I check it out?

A: Find the kit you are interested in and take it to the Circulation Desk by the front door. One STEAM Kit per patron library card may be checked out.

Q: How long can I keep it for?

A: STEAM Kits can be checked out for one week (7 days). The kits are not renewable, and are fined \$1.00 per day late.

Q: Can I place a kit on hold?

A: Holds are not allowed.

Q: Where do I return it?

A: Please return kits to Novi Public Library at the Circulation Desk only—DO NOT put them into a drop box or the automatic return slot. Due to the valuable and breakable components of the kits, if the kit is not returned to the Circulation Desk, a \$10.00 fine will be assessed.
